Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5, 11-12, 14, and 16-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Epperson (US 6,279,172). Epperson teaches a helmet with a rigid shell 10 including an envelope 31 made of a flexible material with a supplemental padding 32 (made of polystyrene foam) and 33 being placed within the envelope. The envelope further includes a opening 31a to allow the removal and additional of padding. Epperson further teaches the use hook and loop fabric to attach the envelope 31 to the inside of the helmet 21. The envelope also serves as the liner of the helmet providing interior decoration. The envelope has a central section with two sides.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 6-10, 13, and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Epperson (US 6,279,172) in view of Sundberg (US 5.655.227).

Epperson teaches the device substantially above. Epperson does not teach the envelope having a T shape. Sundberg teaches a helmet pad 12 having a t shape in including a left and right side. It would have been obvious to one of ordinary skill in the art to modify the envelope of Epperson with the pad of Sundberg to provide further protection of the wearer. The combined invention would provide multiple pockets having openings on the right and left side as to provide access to place the padding inside the envelope. Epperson further teaches the use hook and loop fabric to attach the envelope 31 to the inside of the helmet 21.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See form PTO-892.
